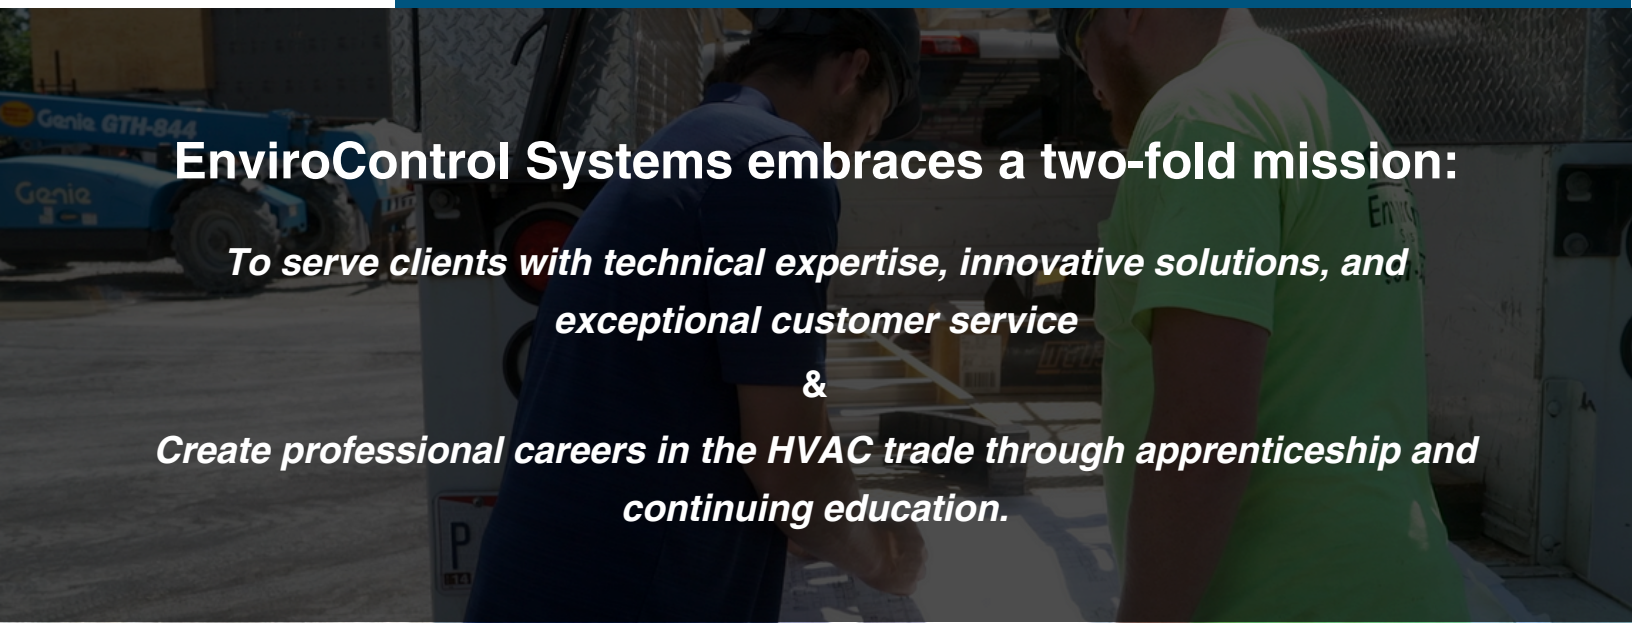
EnviroControl Systems

Apprenticeship Training Program



EnviroControl Systems embraces a two-fold mission:

To serve clients with technical expertise, innovative solutions, and exceptional customer service

&

Create professional careers in the HVAC trade through apprenticeship and continuing education.

OUTSTANDING APPRENTICESHIP TRAINING:

EnviroControl Systems employees are encouraged to enroll in Sinclair Community College's HVAC program. Graduates earn the Ohio Journeyman designation, opening doors to career advancement. Based on performance, apprentices may qualify for the Sinclair certificate and Ohio Journeyman credential at no personal cost.

CONTINUING EDUCATION AND ADVANCEMENT:

EnviroControl Systems also provides written professional development plans, helping employees grow within the company while earning higher wages and benefits. Ongoing skills enhancement is supported through a range of continuing education opportunities.

WAGES & BENEFITS:

Apprentices are valued EnviroControl Systems employees, receiving competitive wages and full company benefits.

- Competitive wages
- Group health coverage
- Long tern and short disability
- Dental/vision coverage
- Paid time off
- Tool/uniform assistance
- Clear advancement track
- Life insurance
- Retirement savings with company match
